Thanks - I was concerned that you all were expecting more than we can provide at this time. I appreciate the clarification and look forward to seeing you all next week.

Lee Anne

We weren't expecting to talk about the EIS in any detail, but rather from a process standpoint.

We also want to talk generally about the HEA. We have discussed this with EPA HQ, EPA's Office of Research and Development and the Jacksonville Corps District, and were also are expecting feedback from NOAA and the Department of Interior on the document.

We want to discuss how we will communicate between the agencies, and with the company. We are already being contacted by Peabody, and we think it's critical that we all coordinate before having any meetings with the company.

We look forward to the meeting next week.

I am concerned about the agenda below. As you know COL Beck has given Peabody until May before we will actually begin to do any work on the EIS - expecting their list of potential consultants by then. Therefore, we are in no position to discuss any aspect of an EIS for the Seven Hills project at this time.

If you want to discuss what Peabody could do to change your mind regarding the need for an EIS or what they might be able to do so that you all withdraw your a/b letters, that is about the limit of what we can talk about at this time.

I just do not want your expectations of this meeting to be something that we cannot provide at this time.

Thanks
Lee Anne

We can discuss some of the EIS things in very general terms, but until we have received the list of potential consultants and pick one and get the contracting issues laid out, we won't be ready to discuss much about the specifics such as scoping, ratings, who we'll ask to be cooperating agencies and such till at a later date.

Subject: [EXTERNAL] Draft Agenda for Dec 6th

Hello all,

We are set for the meeting at Bloomington on Dec 6th and will be arriving Monday afternoon. Peter, Wendy, Elizabeth and I will attend in person. Our NEPA manager and attorney that are also working on the project cannot attend. However we wanted to know if a conference line is available so that they can

join via phone.

We wanted to propose an agenda and welcome thoughts and feedback. Not sure if I copied everyone from FWS and Corps who were attending, please share if I left off anyone.

Corps, EPA, FWS Meeting

December 6th, 2016, 8-10 am

Agenda

Communication

- Meeting requests

- Federal Agencies' joint correspondences

Habitat Equivalency Analysis

Environmental Impact Statement

-Process

- Partner Agencies

- Scope of review

- EIS ratings

Talk to you soon,

Andrea
